

**ANAHEIM UNION HIGH SCHOOL DISTRICT  
GOVERNING BOARD MEMBER**

**BRIAN O'NEAL**

**OCCUPATION:** Parent, Retired Businessman, AUHSD Board Member

As a Board Member, I support the District's goals of making our campuses a safe place to learn; of improving the learning environment on all campuses through modernization and new construction; and of improving academic scores District wide.

As Co-Chair of the Measure Z bond campaign, I helped to raise over \$250 million for the District to make improvements at all schools, making them a better and safer place to learn.

As a Board Member, I have voted to ensure that we prepare our students for both college and careers. Since not all students go to college, we must provide vocational programs such as Industrial Technology to prepare our students for a successful future.

I support excellence in education by hiring and retaining teachers who are eager to prepare our children for the future through teaching life skills such as respect and responsibility.

Reading is the foundation of education, and I will continue to support reading improvement programs for our students in all the schools, and for their parents through our outreach programs.

I will continue to support curriculum improvements, and to recruit and retain quality teachers. I want to continue to implement these goals. I ask for your vote.
